

ABOUT AES

Automated Enterprise Solutions LLC is a Georgia-based, minority-owned Small Disadvantaged Business delivering modern software development, cloud integration, data visualization, and IT modernization to government agencies. We build with current frameworks and cloud-native architectures, on time, on budget, with no bureaucratic layers between the client and our senior engineers.

CORE COMPETENCIES

- **Custom Application Development** — Full-stack web apps for agency requirements
- **Data Visualization & Reporting** — Dashboards and analytics suites
- **Cloud Migration & Integration** — AWS & Azure architecture, hybrid cloud
- **Systems Integration & APIs** — Legacy modernization, API design
- **Microsoft 365 / Azure AD / SharePoint** — Enterprise M365 integration
- **AI & Intelligent Automation** — ML workflows, process automation
- **UI/UX & Accessibility Design** — Section 508-aware, user-centered design

PAST PERFORMANCE

Subcontractor — WMATA

IT services delivered under a prime contractor engagement with the Washington Metropolitan Area Transit Authority. Provided software development and technical solutions supporting transit operations in Washington, DC. Concluded April 2026.

ProcurFlow.io — Founder-Built SaaS Platform

Full-stack food manufacturing management platform designed, developed, and deployed by AES. Features real-time inventory dashboards, production simulation, RBAC, compliance traceability, and integrations with Shopify, QuickBooks Online, and Sage 50. Built on AWS serverless infrastructure.

Commercial Web Development & Cloud Projects

Production web applications, cloud infrastructure on AWS/Azure, data visualization dashboards, and design systems delivered on time and within budget for commercial clients.
